

An online benefits platform for Small Businesses. Practical and Complete.

Designed for small businesses of 150 employees or less. One way that gets it all done:

- Benefit Pricing and Quotes**
- Group Open Enrollments**
- Ongoing Benefits Management**
- ACA Compliance**

Pick your direction... from ACA marketplace to self-funded plans

FormFire helps you and your benefits Broker gather employee information and find the right mix of benefits choices for you and your employees. It manages ongoing employee and plan changes and keeps you the right side of ACA compliance.

FormFire's unique set of online tools puts everyone in a great spot:

- Finding the right benefits programs and plans
- Moving all employees quickly through the annual enrollment process
- Demonstrating how your company contributes to employee welfare
- Sharing required documents and notifications with employee
- Getting payroll deduction information and enrollment applications to the right parties
- Keeping track of ongoing changes throughout the year
- Storing and tracking information needed for annual ACA compliance
- Reducing the chore of next year's quoting and enrollment activities
- Working with your trusted Benefits Broker—allowing real-time service and support so you, the employer, are never on your own

Why use FormFire:

It's Flexible: No matter where benefit options lead FormFire can help. From ACA marketplace to Self-Insured plans, we and your Broker are there. Some insurance companies do enrollments digitally, some still want paper applications. Either way, FormFire's got you covered.

It's Expandable: Maybe you're looking for a total benefits solution, or maybe just ACA compliance tracking. No problem—every company can start where they need to. You can use as much or as little of the system as you need. FormFire helps you offer employees an online experience that's supported, covers many benefits option types and will help guide employees to the right choices for them.

It's Secure: FormFire operates at the highest level of security available. We are subject to HIPAA and HITECH legislations and pride ourselves in being an industry leader: both in security and e-signature processes (this is important if you want to eliminate the dreaded "paperwork"). We welcome your questions. Ask us.

It's Paperless: Give employees an online experience that's a huge upgrade from paper! Employee accounts are fully supported and can be "stocked" with your company's customized benefit offerings. All necessary enrollment formats are processed digitally. We even help you and employees manage adds, changes and terminations throughout the life of your benefits plans.

It Connects: No matter how your benefits providers currently work—online or offline with paper—FormFire can support you. From EDI connections points to filling out change forms, our technology bridges the tech-divides. If you're facing a tricky enrollment situation...talk with us; chances are FormFire and your Benefits Broker will have a solution for you.

It's Practical: Our technology works with real people in the real world. For over 10 years, we've worked with benefits Brokers and small business like you, we understand the value of that relationship. FormFire's platform is a cost effective, real-world way to face new challenges. No need to commit to a distant provider or unknowledgeable technical resource—you can work at the highest level of technology and not have to put aside the people you have come to rely on.

It's ACA Compliant: FormFire's digital platform is built to deliver what smaller businesses need to stay on the right side of ACA reporting laws. In addition to the many downloadable formats you can access 1094/1095-C documents directly, with fully-tracked employee changes throughout the year. Weren't tracking things fully in 2015? Believe it or not...we can help you there too!

It's the Future: As benefit options and requirements continue to change, conventional off-line processes will come under increasing strain. FormFire is a cost effective, real-world way to get started and then grow as your needs and business do. Talk with your Broker about joining us.

About FormFire

FormFire is an Insurance Carrier-accepted, HIPAA compliant, online benefits application and management service designed to take the work and frustration out of dealing with the benefits insurance industry.

FormFire reduces the amount of effort, time, cost, and paperwork that organizations and individuals have to go through in applying for confirmed carrier community or self-funded rates, getting service and enrollment applications done, and managing both individual changes, group renewals and compliance issues.

We support the health insurance industry as they move towards enhancing services through the eradication of paper and the leveraging of digital systems. We were founded in 2006, after an extensive 3-year product development.

Our goal is to build a unifying digital system that serves the whole insurance market—particularly where private health information and digital workflows are part of the normal business processes.

FormFire is headquartered in Cleveland, Ohio. USA.
